Il calore della terra

LA FENICE
CERAMICHE

A dramatic landscape of green mountains under a hazy sky. The foreground shows a rounded, grassy hillside leading up to a sharp, rocky peak. The background features a range of similar mountains, some with patches of snow or light-colored rock, all under a soft, overcast sky. The overall color palette is dominated by various shades of green and grey, with a warm, slightly desaturated tone.

Il calore della terra

**La ricchezza materica della terra
cruda pigmentata incontra il
fascino vibrante della resina
spatolata.**

Natural è un dialogo di sensazioni
tattili e visive che si completano
a vicenda, in una collezione
con due anime, dalle tonalità
calde e rassicuranti. Un'estetica
genuinamente naturale, che
unisce radici arcaiche e design
contemporaneo.

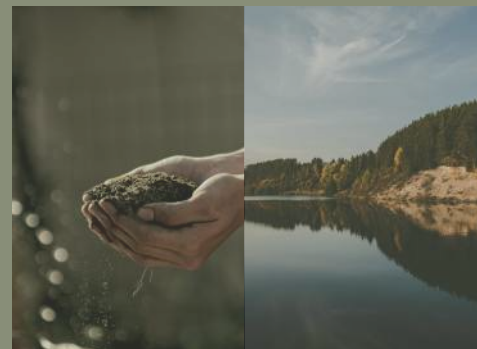

The warmth of the earth

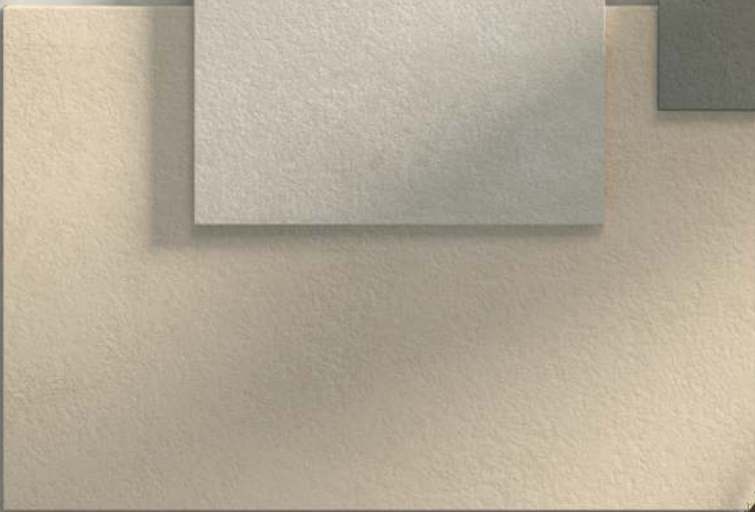

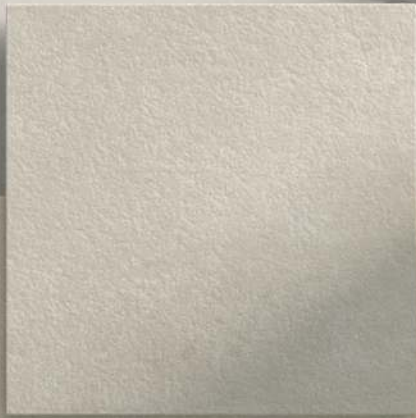

The rich texture of pigmented raw earth meets the vibrant charm of resin.

Natural is a dialogue of tactile and visual sensations that complement each other, in a collection with two souls, featuring warm and reassuring hues. A genuinely natural aesthetic, combining ancient roots and contemporary design.

La chaleur de la terre

La texture riche de la terre brute pigmentée rencontre le charme vibrant de la résine. Natural est un dialogue de sensations tactiles et visuelles qui se complètent, dans une collection à deux âmes, aux teintes chaudes et rassurantes. Une esthétique authentiquement naturelle, alliant racines anciennes et design contemporain.
