

A R T I F A C T

a concept by LO STUDIO design

[reinventing nature]

Material.	Glazed porcelain rectified White body double-firing
Sizes.	120x120 - 60x120 - 7,5x30
Thickness.	9mm
Finish.	Natural
Colours.	Off White, Ash, Graphite
Accessories.	Items available
Application.	Inside - Outside / Floor - Wall

SETTECENTOSTUDIO

LO STUDIO design

IT

Paola Ascari e Alberto Zattin, partner nella vita e nella professione, dopo aver sperimentato in ambiti differenti il tema della progettazione e della creatività fondano nel 2003 LO STUDIO design.

Sviluppano progetti in diversi ambiti integrando direzione artistica e creativa, grafica, architettura, progettazione d'interni, styling e design di prodotto interpretando il progetto in senso umanistico, come azione coordinata di persone e discipline, nella convinzione che la creatività sia un atto plurale e condiviso.

LO STUDIO design è un luogo aperto a eventi culturali e collaborazioni con artisti e professionisti attivi in ogni campo.

EN

In 2003, after gaining experience in the world of creative and design, Paola Ascari and Alberto Zattin, partners in life and in work, decided to pursue their own creative vision and founded LO STUDIO design.

They develop projects in different fields by integrating art and creative direction, graphic design, architecture, interior design, styling and product design by interpreting the project in a humanistic sense, as a coordinated action of people and disciplines, in the belief that creativity is a plural and shared act.

LO STUDIO design is a place open to cultural events and to collaboration with artists and professionals working in all fields.

“ARTIFACT è un’indagine sulla lavorazione delle materie utilizzate in architettura.

Il recupero dell’estetica di pietre e marmi utilizzati in passato dai grandi architetti italiani - Carlo Scarpa, Giò Ponti, Piero Portaluppi, Angelo Mangiarotti - ci affascina.”

LO STUDIO design

“ARTIFACT is an investigation into the processing of materials used in architecture.

The revival of the aesthetics of stones and marbles previously employed by renowned Italian architects - Carlo Scarpa, Giò Ponti, Piero Portaluppi, Angelo Mangiarotti - captivates us.”

“Vogliamo andare oltre e definire una superficie contemporanea che porta in sé tracce e memoria di materie naturali e che comprenda elementi di superfici conosciute: un’operazione di sintesi e contaminazione. Non una replica ma una sintesi, e quindi un prodotto di invenzione.”

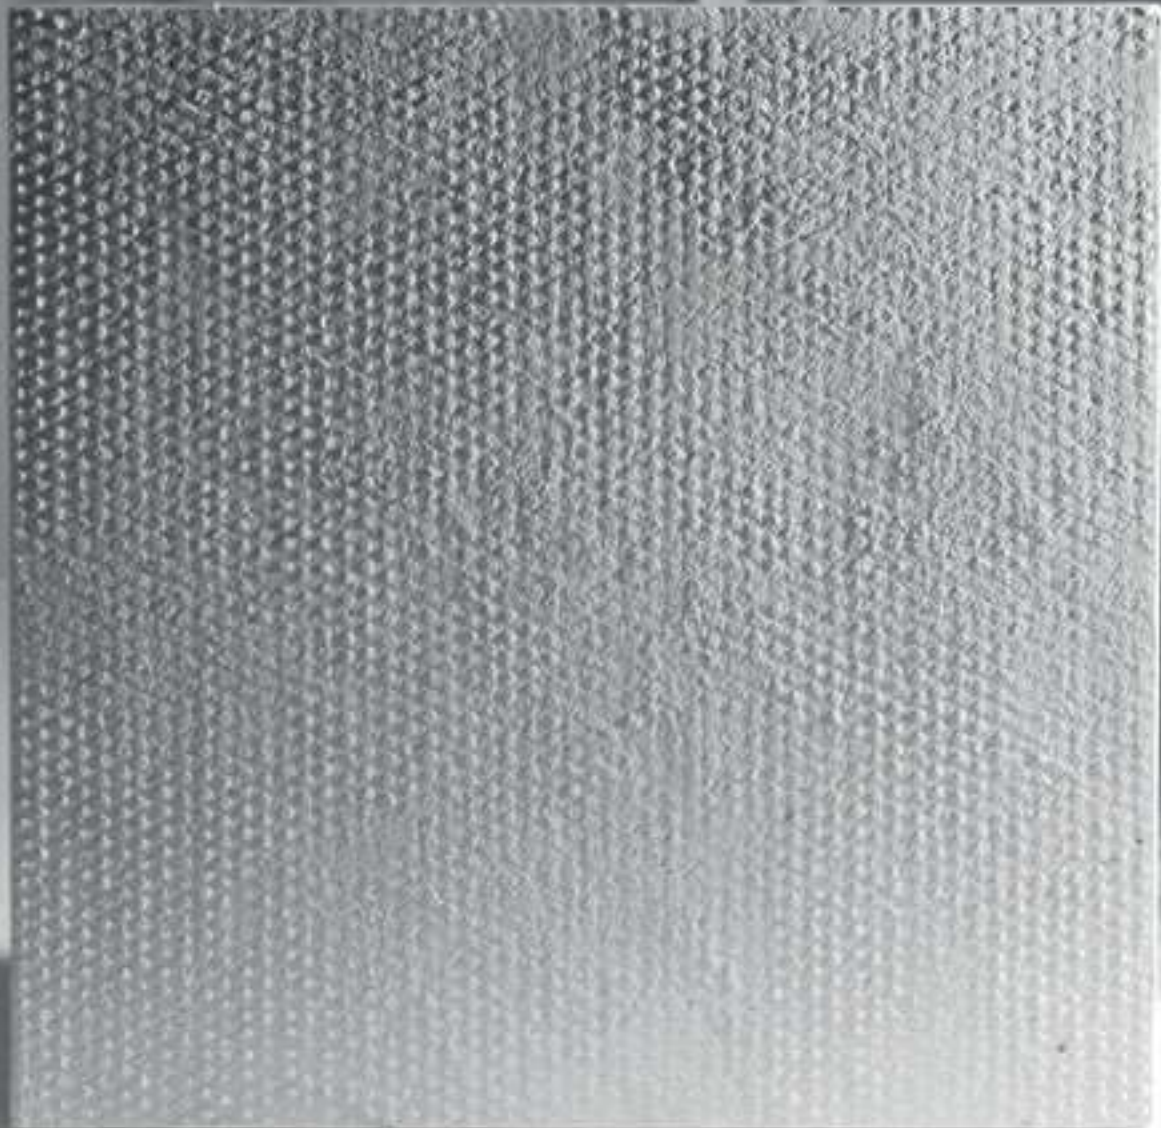

“We wanted to go beyond and define a contemporary surface that carries traces and memories of natural materials, while also incorporating elements of familiar textures: a process of synthesis and fusion. Not a mere replica, but a synthesis, and thus a product of invention.”

“Ci siamo concessi di sperimentarne le possibilità attraverso un’indagine libera sul colore e sulle texture spingendo la ricerca oltre ai limiti propri della natura per coniugarla e collocarla nel contemporaneo.”

LO STUDIO design

“We allowed ourselves to experiment with its possibilities through unrestrained exploration of colors and textures, pushing our research beyond the inherent limits of nature to place it within the contemporary context.”
