CAM ISO 14021

Nell'aprile 2016 il Ministero dell'Ambiente italiano ha introdotto una serie di criteri ambientali per l'edilizia, chiamati CAM Edilizia - Criteri Ambientali Minimi per l'Edilizia -, volti a facilitare l'inserimento di requisiti di eco-sostenibilità nelle gare d'appalto per interventi pubblici. L'obiettivo è quello di stimolare acquisti che minimizzino l'uso di risorse naturali e il consumo di energia, che contribuiscano inoltre alla diffusione di fonti rinnovabili, riducano la produzione di rifiuti, le emissioni inquinanti nell'aria, nell'acqua e nel suolo ed che eliminino le sostanze ambientalmente pericolose.

Grazie ad un sistema di gestione ambientale sostenibile, alla certificazione EPD e in accordo con lo standard internazionale ISO 14021, Italgraniti contribuisce ad un'edilizia di qualità e prestazioni al di sopra della media di settore.

In April 2016 the Italian Environment Ministry introduced a series of environmental criteria for construction, called CAM Edilizia - Minimum Environmental Criteria for Construction -, aimed at facilitating the insertion of eco-sustainability requirements in calls for tender of public works. The aim is to stimulate purchases that minimise the use of natural resources and energy consumption levels, which also contribute towards the spread of renewable sources, reducing waste production, polluting emissions into the air, water and soil, and which eradicate environmentally hazardous substances.

Thanks to a sustainable environmental management system, to the EPD certification and in accordance with international standard ISO 14021, Italgraniti contributes towards quality construction with performance levels above the industry average.
